

Name: _____

Key

Date: _____

Write down two more elements in each set:

1. $\{2, 4, 6, 8, \dots\}$ 10, 12
2. $\{\text{Sunday, Monday, Tuesday, } \dots\}$ Wednesday, Thursday
3. $\{1, 4, 9, 16, \dots\}$ 25 36 (perfect squares)

Set A = {whole numbers from 1 to 25}

4. List the subset B {multiples of 5} {5, 10, 15, 20, 25}
5. List the subset C {multiples of 3} {3, 6, 9, 12, 15, 18, 21, 24}
6. List the subset D {perfect squares} {1, 4, 9, 16, 25}
7. List the elements that are in both subsets B and C. {15}

State whether each of the following statements is true or false.

8. $\{\text{Mexico, Canada}\} \subset \{\text{Countries in Europe}\}$ false
9. $\{\text{mango, banana}\} \subset \{\text{fruit}\}$ true
10. $\{\text{volleyball, basketball, football}\} \subset \{\text{team sports}\}$ true
11. $\{\text{potatoes}\} \subset \{\text{carrots}\}$ false

12. Subset W = {hair, live birth, breathe air, have fins, internal skeletons, live in water, can swim}

13. Subset F = {have fins, internal skeletons, live in water, can swim, breathe water, lay eggs, have scales}

14. Subset S = {live in water, can swim, breathe water, lays eggs, have legs}

15. What elements are in subsets F and S? {live in water, can swim, breathe water, lay eggs}

16. What elements are common to all 3 subsets? {live in water can swim}

17. Subset {can swim} = {jellyfish, fish, sharks, whales, sea turtles, humans, ducks, dogs, shrimp?}

18. Subset {have fins} = {fish, sharks, whales?}

19. Subset {breath air} = {whale, sea turtles, humans, ducks, dogs, chimps, spiders, chickadees?}

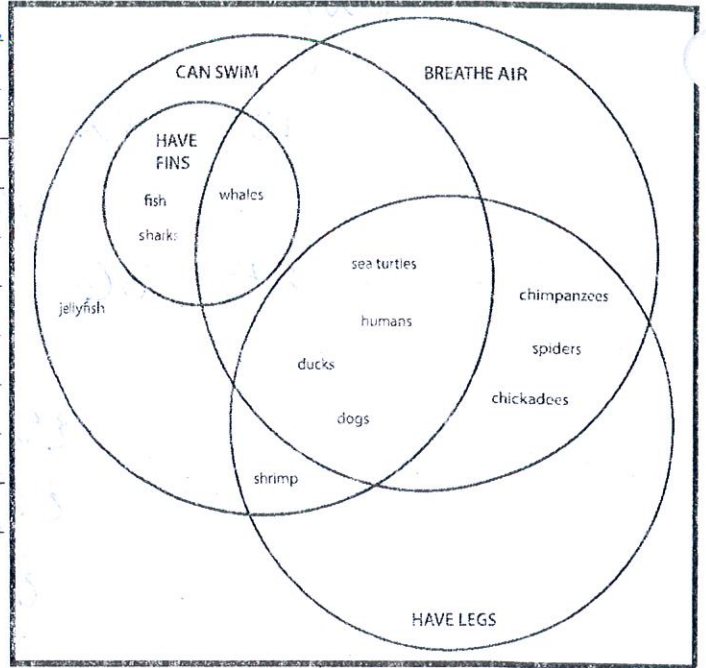

20. Is {can swim} \subset {have fins}? NO

21. Is {have fins} \subset {can swim}? YES

22. Is {have fins} \subset {breath air}? NO

23. What animals are in both {can swim} and {breath air}? {whales, sea turtles, humans, ducks, dogs?}

24. What animals are in {can swim} or {breath air}? {all elements?}

25. List the elements of subset {A}. {6, 10, 2, 8, 4, 12?}

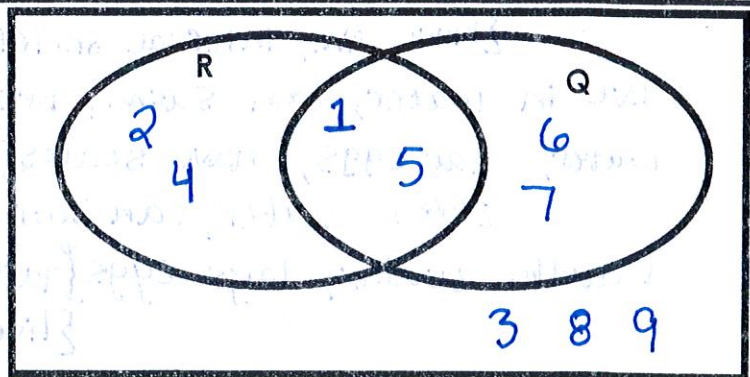

26. List the elements of subset {B}. {8, 4, 12?}

27. Is {A} \subset {B}? NO

28. Is {B} \subset {A}? YES

29. Complete the Venn diagram.

Set R contains shapes with a right angle (90°).
Set Q contains shapes with four sides.
